AIRBORNE PARTICLE COUNTERS

Incorporating the latest in laser optical particle counting technology, Lighthouse designed the Remote airborne particle counter line for continuous trouble-free operation.

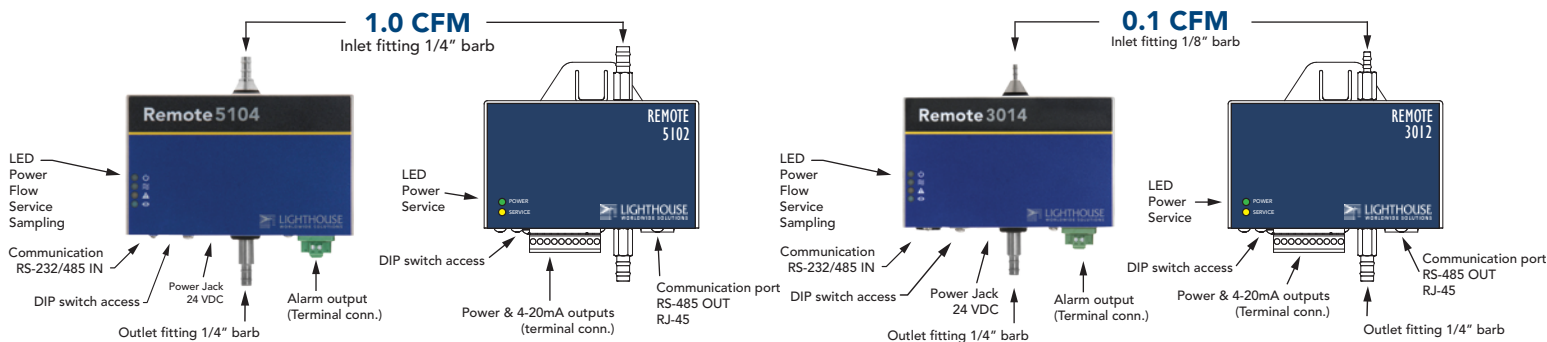

With minimum sensitivity ranges of 0.2 μm , 0.3 μm , 0.5 μm and flow rates of 1.0 CFM and 0.1 CFM the Remote line provides continuous real-time data collection at a cost-effective price per point.

Using external vacuum source, these compact particle counters provide versatile mounting options and can be installed where space is at a premium.

The Remote line will integrate seamlessly into large facility monitoring and management systems.
